A graduate in Informatics Engineering form Darussalam Gontor University with 3 years experience as an IT Staff/Support, Specialising in full-stack software engineering (Web & Mobile), IT helpdesk technical support, and the management of internet and cloud network infrastructure. Ready to contribute professionally to support the stability and adaptive operation of innovative technologies.

EXPERIENCE

IT Staff – Suport dan Helpdesk *November 2022 – October 2026*
LPTSI UNIDA Gontor (Lembaga Pengembangan Teknologi dan Sistem Informasi)

- Served the academic community as a Front-Desk / Service-desk officer, handling ticketing and complaints regarding campus IT service issues in a responsive manner.
- Configuring and managing MikroTik, TP-Link and Tenda network devices, including IP address allocation, management and Wi-Fi SSIDs.
- Regularly monitoring network performance and handling technical troubleshooting (slow connections, network disconnections or device faults).

Cloud Computing Cohort *August 2024 – Januari 2025*
BANGKIT AKADEMY 2024

- Completed the learning modules on the Bangkit platform, covering cloud concepts, infrastructure technology, modern architecture, and backend development.
- Studying and implementing core cloud computing concepts, such as virtualisation, containers, networking, cloud storage, and the design of RESTful APIs for application services.
- Building, managing and optimising cloud-based infrastructure and reliable backend services in line with project requirements.
- Collaborating with multidisciplinary teams (Machine Learning, Mobile Development) to integrate backend systems and create innovative cloud-based solutions.

Acamedic Division *Auguts 2022 – September 2023*
Himpunan Mahasiswa Teknik Infomatika UNIDA Gontor

- Initiating and organising programmes to enhance the quality of student learning, such as workshops, training sessions or seminars in the field of technology.
- Maintained active communication with lecturers to support relevant academic activities.
- Connecting students with experts or alumni who can share their experiences.
- Organising seminars at secondary schools in the vicinity of the campus to establish Memoranda of Understanding (MoUs) with academic programmes or the university.

Website Development Division *November 2025*
PKM HIBAH KEMENDIKTISAINTEK

- Developing the Eduagrowisata Caru partner website based on WordPress
- Serving as a speaker on business digitalisation for the community and introducing the OSS platform.

EDUCATION

Bachelor's Degree in Information Technology *March 2022 – Auguts 2025*
Darussalam Gontor University – Ponorogo

- GPA 3,71/4,00
